A STRATEGIC APPROACH TO DRIVE RESULTS

Visionary Integration Professionals

Technology Solutions and Services for Commercial Organizations

VIP Capabilities

Visionary Integration Professionals (VIP) combines deep technical expertise in the area of Software Quality Management with leading technologies to deliver impactful solutions to a wide variety of commercial industries. VIP's seasoned team of technical experts collaborate closely with organizations to design and drive strategies that improve software quality initiatives and foster technology modernization. Since 1996, VIP has specialized in Software Quality, cultivating these core capabilities:

Software Testing

VIP offers a broad range and flexible choices to meet testing needs. We apply the leading technologies, proven methods, and experienced professionals for testing and complete test automation solutions.

Test Automation

VIP provides software sales and professional services around the implementation of testing and test automation software. We leverage our partnerships with leading vendors and varied experience to offer a wide range of both packaged and custom solutions, delivered by our highly skilled team.

Performance Testing

Our custom testing services determine whether internal and hosted applications will support expected volumes and business throughput. We deliver reliable, customized load and performance testing services coupled with the leading software solutions.

Test Leadership

VIP leads software quality and testing through partnership and collaboration. Clients trust VIP to deliver the right combination of experience, methodology, planning, and technology to make the most of their testing budgets and resources.

DevOps and Agile Transformations

We apply years of industry experience in the adoption of Agile and DevOps practices into commercial customer ecosystems. Our experience and credibility bring order to the complex challenges associated with the adoption of deep Collaboration, Behavior Driven, Rapid Development, and Continuous Integration concepts.

Managed Services

VIP offers complete solutions for Testing, Test Automation, Performance Testing, and DevOps Transformations in the form of subscription-based Managed Services. Whether your business relies on legacy systems, packaged software, custom sites, or mobile apps, VIP deploys a team to relieve you from burdensome testing efforts to develop a complete Testing and Test Automation solution.

Strategic Partnerships

We work with a number of leading technology firms whose innovative tools, paired with VIP's unparalleled service experience make for a powerful combination. VIP's strategic partners that deliver critical solutions in the commercial sector include:

MICRO FOCUS   SMARTBEAR   Neotys

VIP has also built a solid reputation providing systems integration, organizational change management, thought leadership, and quality assurance services through complex, high value projects. Corporations across North America rely on VIP to deliver successful projects and solve business problems through the balanced use of people, process, and technology.

Visionary Integration Professionals (VIP)

A strategic approach to drive results

We offer a diverse solution portfolio that allows organizations to better align strategy with execution. The most effective path to achieving success requires dedicated teams, proven methods, and adaptability to tailor our solution offerings to meet the unique needs of our clients. Our management consulting and technology solution capabilities provide the visibility, proven execution, and agility to accelerate strategic change. VIP has partnered with 1,200+ clients to deliver **results that matter.**
